EXCELLENT SERVICES ALWAYS DELIVERED

Our comprehensive product offering is complemented by an expert service proposition. From site survey, design consultation, customization, and installation - to post - installation support, our trained professionals are with you every step of the way.

Sensibly Green

PERFECT PROTECTION AGAINST THE ELEMENTS

With the rapid depletion of forests both in India and other parts of the world finding alternatives for the use of wood particularly in the building industry is becoming critical.

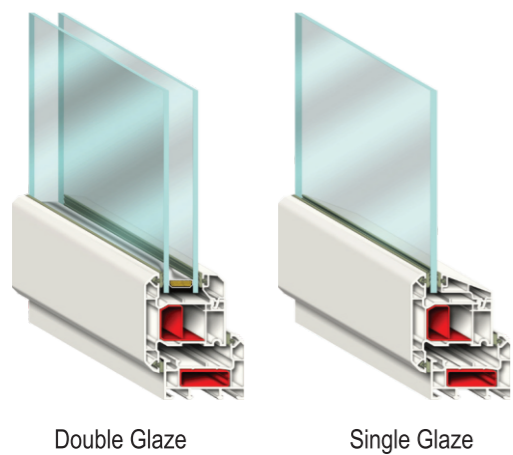

With an extrusion process that does not demand high energy, Shree Windows provide a viable option In-fact the energy equivalence of Shree Windows is the total energy consumed in the production of UPVC is lowest as compared to other competitive material. Positive insulation reduces the carbon foot print of the building and sense the product uses no wood, it does not contribute to de forestation.

Shree Windows chooses to use lead free formulation, thus increasing the environmental sustainability of the product and making it a non contributor to the health and environmental hazards of lead poisoning. This makes the product 100% recyclable and very green indeed.

Advantages Of UPVC

NOISE PROTECTION SYSTEM

Shree windows can insulate interiors from sounds of up to 38 dB. This easily exceeds the recommended sound-proofing level of 30 dB in a high-tech city centres or each in residential areas across the city.

INCOMPARABLE SAFETY

Our profiles will accommodate most of the shootbolts and security hinges currently available on the market. Due to the Eurogroove in our sash profiles all multi point locking hardware can be installed in windows and doors to further deter burglars. In addition the windows supplied by our fabricators and installers are internally glazed. This means the glazing beads that hold the glass in place are on the inside and cannot be removed by would be intruders.

SELF EXTINGUISHING

Shree uPVC windows is classified as a high-impact resistant material. It is notably difficult to ignite and will selfextinguish when the source of heat is removed.

RUST PROOF

Unlike other materials, Shree Windows uPVC profiles art rott-proof and resistant to atmospheric pollution, including a range of acids and alkalis. This also means theywill never rot in the manner of wooden frames over time.

NOISE PROTECTION SYSTEM

HIGH WIND LOAD PERFORMANCE

INCOMPARABLE SAFETY

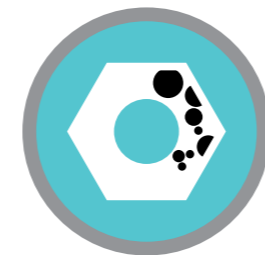

EASY TO CLEAN

SELF EXTINGUISHING

AIR & WATER TIGHT

RUST PROOF

EASY MAINTENANCE

HIGH WIND LOAD PERFORMANCE

The wind load capacities of Shree Windows have been verified at a range of 3500 – 6300 Pa (tested in accordance with GB/17106 2002 and at estimated windspeed of 270 - 380 km/h). In other words, Shree windows are built to withstand the gustiest wind conditions, which makes them an ideal choice in highrises and coastal areas.

EASY TO CLEAN

These days, more people live in high-rise apartments that overlook vehicular traffic with all its noise and air pollution. This makes housekeeping even more of a chore. Shree Windows have been thoughtfully designed to keep out what doesn't belong in a clean and restful environment

AIR AND WATER TIGHT

Shree windows incorporate an 8mm overlap between frame and sash, as well as dual compression gaskets, to prevent both dust penetration and water infiltration. They boast a proven water tightness of at least 2 litres/min/m² @ 700 Pa (tested in accordance). So your home stays absolutely dry however heavily it might be raining outside.

EASY MAINTENANCE

It takes only half as much time to clean tilt and turn windows, as their openings allow you to swipe both sides at the same time. Being made of exceptionally durable uPVC, Shree windows are extremely resistant to pollution, diluted acids and alkalis. No special maintenance regime beyond the use of appropriate standard household cleaners is required. All in all, a Shree Windows is virtually guaranteed to help you save plenty of time and money over the long duration of its use.

Introducing ALUMIN

RE-DEFINING QUALITY IN ALUMINUM

With the inception in early 1980's the enterprise that today stands tall as The Shree Group, The Group has innovated and introduced a number of products in India. We are among the largest manufacturers and suppliers of doors and windows for household and commercial industries in India.

In continuation to our expertise and UPVC door and window market, we are pleased to present **ALUMIN**- a brand by shree windows. The company proposes to provide the same level of perfection in aluminium doors and windows market as well through the invaluable experience and expertise of the past.

We specialize in providing aluminium section and UPVC windows for a larger mass of projects across the country, like Casements Windows, Slider Windows, Combination Windows, Tilt and Turn Windows, French Windows, Bay Windows. We have our own in-house manufacturing facility with latest equipments and skilled group of people to give birth to quality products.

Through our innovative products we hope to extend the boundaries of architects, designers and builders and change the face of architecture in India.

Quality and Customer Satisfaction have always been the keyword and concern to us.

Why Alumin

DESIGN FRIENDLY

ALUMIN, Doors & windows come in a variety of colours & finishes that suit a range of interiors & exteriors landing grace and beauty to the architecture design which in turn adapts to any interior theme with ease with vast range of colors -

ENERGY EFFICIENCY

With U-values from 0.8 to 1.6 W/(m²K), **ALUMIN** can achieve maximum thermal insulation values which guarantees energy efficiency. This is how you ensure markedly lower heating costs. You can make further savings with targeted ventilation. Here too, **ALUMIN** has the right solution.

EASY MAINTENANCE

These days, more people live in high-rise apartments that overlook vehicular traffic with all its noise and air pollution. This makes housekeeping even more of a chore. **ALUMIN** have been thoughtfully designed to keep out what doesn't belong in a clean and restful environment

SOUND PROTECTION

ALUMIN can insulate interiors from sounds of up to 38 dB. This easily exceeds the recommended sound-proofing level of 30 dB in a high-tech city centres or each in residential areas across the city.

UN-COMPROMISED SAFETY

Above everything else, feeling secure is about the certainty that you are well protected – from the wind and the weather, and also from burglars. Concealed yet highly effective I t ensures security.

Mechanism Of Alumin

CASEMENT WINDOWS

ALUMIN Casement Window range are designed to provide the maximum flexibility for fabricators and clients alike. The system is based on a two profile depths - 40 and 50 mm and was designed to facilitate maximum application coverage.

CASEMENT DOORS

ALUMIN Single or Double Casement Doors, suitable for opening-in and opening-out mode, can be used as main entrance door or as ancillary door. Casement doors are available in 40 mm or 50 mm profile depth, can be manufactured as stand-alone items or part of a screen.

TILT N TURN WINDOWS

Tilt N Turn Windows are designed to provide a European window option for fabricators and clients alike. The window is available as part of the EN62 range and was designed to give the discerning end user a state of the art inward opening fenestration solution. The Tilt N Turn provides the client maximum design freedom due to larger opening sizes that can be achieved and suits any window replacement program or building type in the fast growing construction industry.

- Internal glazing options for 4 mm single to 36 mm triple
- Concealed heavy duty hinges and multi – point locking as standard

TILT N SLIDE DOORS

Tilt N Slide Doors offer the ultimate in protection for your home. The European concept of tilting and sliding the door sash allows the provision of a dual compression seal and provides the maximum ventilation and glass area. The dual compression seal gives excellent insulation from sound and dust alike

- Contemporary modern soft line profile appearance
- Double Compression seals protect against draught, dust & water
- Internal glazing options from 4 mm single to 24 mm double
- Multi-point perimeter locking and heavy duty tandem rollers as standard

TWO TRACK

This series allow the installation of a range of glass from 5mm,6mm & 20mm thickness for different types ex. 6mm glass. The glass is assembled directly into the shutter frame without any glass beads but using special gaskets which guarantees air and water tightness.

THREE TRACK

This series allow the installation of a range of glass from 5mm to 24mm thickness. The glass is fixed by various type of u-type internal and external gasket. This system permits the construction of three track sliding windows with option wiremesh(light weight).

FOLD N SLIDE WINDOWS

Fold N Slide Doors system provides superior operating performance and smooth integration into any architectural style and space. The door system is engineered using high quality UPVC Window and Door profiles and superior hinge and locking systems that are reliable and secure. The rollers along which the doors slide, offer a smooth glide and reliable performance with solid design and expert engineering.

- Contemporary modern Softline appearance
- Internal glazing option from 4 mm single to 24 mm double Multi-point perimeter locking devices as standard
- Heavy duty tandem rollers for smooth operation

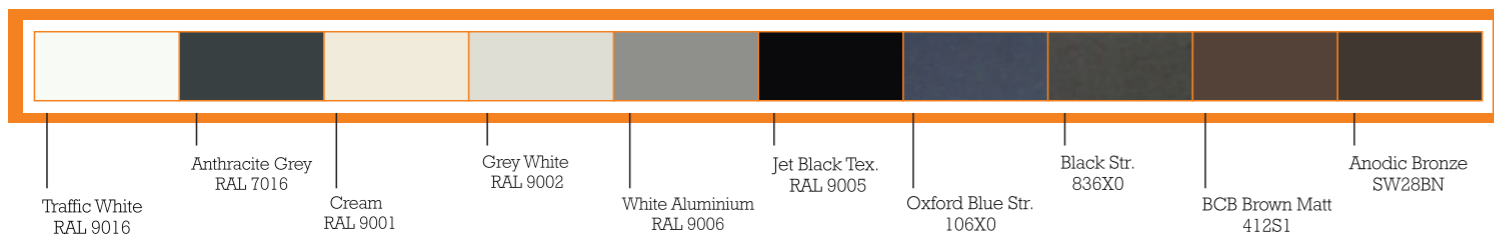

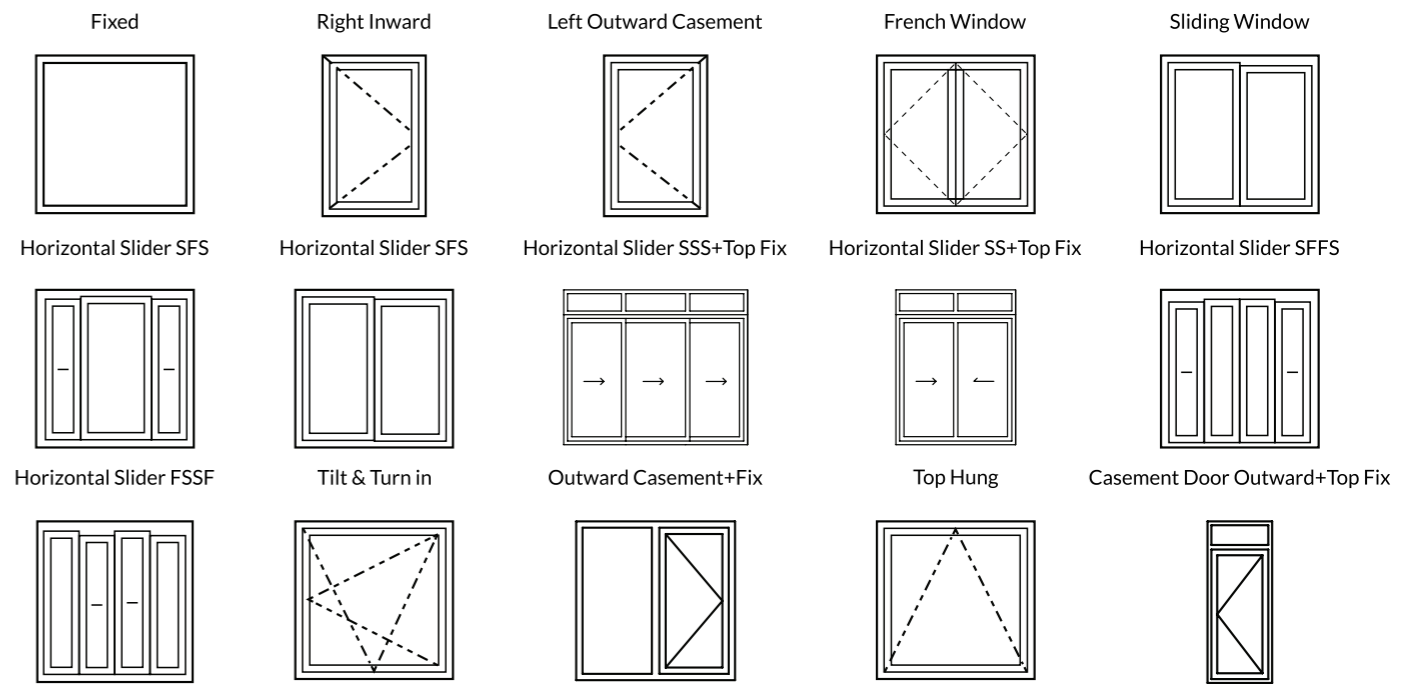

LIFT N SLIDE DOORS

The leading fenestration brand in the country, has given innovative fillip to traditional sliding and the result is – Lift n Slide Doors which are designed for larger openings for unobstructed views. By rotating the handle 180° the door fully lifts off its seals. ALUMIN'S hallmark engineering precision ensures ease of function in both operations, that is, sliding and lifting.

- Easy handling due to perfectly aligned system technology Double compression seals protect against draught, dust & water
- Internal glazing options from 4 mm single to 36 mm triple Heavy duty tandem rollers for smooth operation

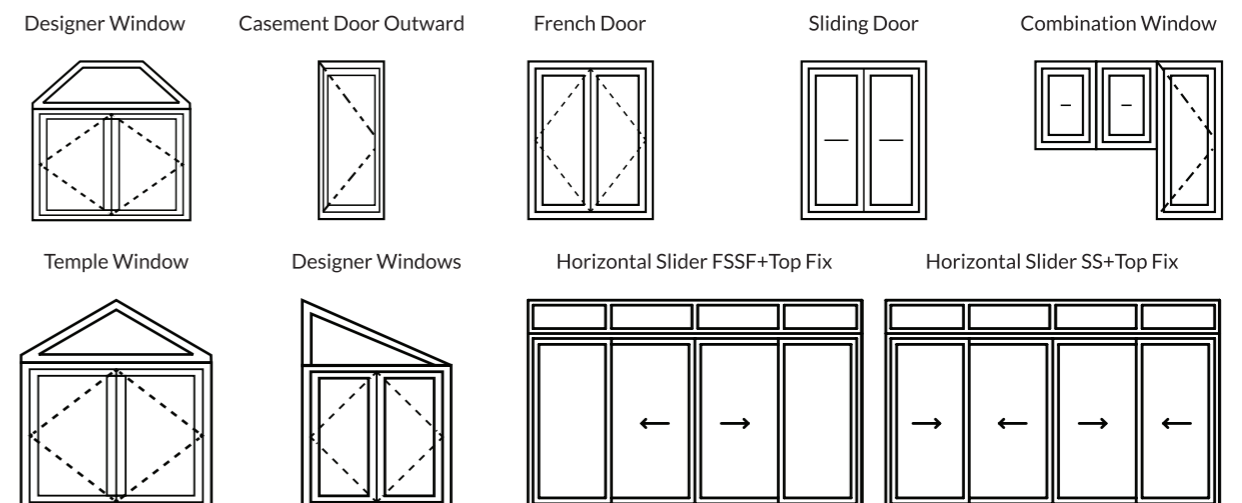

Shades Of Alumin
